## PROFESSIONAL SUMMARY

---

I enjoy the best of both worlds: writing clean code and uncovering stories in data. Whether I'm building a new feature or analyzing how people use it, my goal is always to create tools that are simple, functional, and helpful. I'm a lifelong learner who's passionate about using technology to solve real-world problems in a smart way.

## PROJECT

---

### [Superstore-Sales-Analysis-Using-Python](#)

August, 2024

This project is an analysis of the famous superstore sales dataset using Python. I carried out hypothesis testing and exploratory data analysis using Pandas and Matplotlib to derive insights from the dataset. The goal of this project was to analyse the data and identify insights that could help the company improve its business performance.

### [Simple and Modern Landing Page using React.js, Tailwind CSS and Framer Motion.](#)

January, 2026

You can find the source code [here](#). This is fully responsive with TailwindCSS used for the styling and Framer motion for animation.
